## Section 3 – Executive summary

### **Description of the deliverable content and purpose**

The work package 4 deals with the dissemination of scientific and technical results to the public community. Therefore, scientific and technical conferences are a necessity to present the outcome of the project to a wide audience. Therefore, we want to provide a list of adequate conferences on our project website with hyperlinks to promote the abstract submissions from the consortium. This list will be updated every 6 month. The deliverable D4.4 is the first list of conferences.

### **Brief description of the state of the art and the innovation brought**
